SEGO LILY WATER CONSERVATION GARDEN FAIR

The District sponsored a fall water conservation fair at Segó Lily Gardens on Saturday, September 24, 2011. Over 200 visitors participated in the fair. Free classes were taught on the following topics: landscaping with native plants, tree maintenance, and edible gardens. There were also free children activities and tours of the garden. The first 100 families received a bag of bulbs and a bulb planter purchased by the District.

TERMINAL RESERVOIR REPLACEMENT PROJECT OPEN HOUSE

During a September hearing, the Salt Lake County Planning Commission requested that the District hold a neighborhood meeting with the residents who surround Terminal Reservoir. District staff, Project Engineers, and Salt Lake City staff held an Open House at the Terminal Reservoir Site on October 6, 2011 from 6:00 p.m. to 7:30 p.m. Invitations were delivered to community council representatives, Salt Lake County staff and approximately 40 residences which surround Terminal Reservoir. The meeting was attended by close to 30 people. A brief presentation was given and then questions and answers took up the remaining time. Neighbors were able to voice their concerns regarding contractor access, obstructed views, dust, noise, etc. Handouts which included key project contact information were provided. The meeting served as a nice public relations tool for the District to engage with the neighbors as well as meet the requirements set forth by the Planning Commission.

G-300 AWARD

The District was presented the G-300 Source Water Protection American Water Works Association (AWWA) award at the AWWA's Intermountain Section annual conference in St. George on September 14, 2011. In order to receive this award the District completed an internal evaluation of its source water protection plans. The District also submitted a spreadsheet with all the information gathered during the internal evaluation for review by appointed AWWA staff.

OUTSTANDING OPERATOR AWARD

Ron Payne received the Outstanding Operator Award in September at the American Water Works Association Intermountain Section annual conference. Ron has been with the District since June of 2003. In November 2003, he passed his Treatment Grade IV exam and in April 2004, he obtained his Distribution Grade IV receiving the highest score in the State of Utah. He is trained to operate at either of the District's two treatment plants; the Little Cottonwood Water Treatment Plant and the Point of the Mountain Water Treatment Plant. The District recognizes and appreciates Ron's contributions to the District.
