INDEPENDENT AUDITORS' REPORT

Board of Trustees
Metropolitan Water District of Salt Lake & Sandy
Cottonwood Heights, Utah

We have audited the accompanying financial statements of Metropolitan Water District of Salt Lake & Sandy (the District) as of and for the fiscal years ended June 30, 2011 and 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the District as of June 30, 2010, were audited by other auditors whose report dated October 19, 2010, expressed an unqualified opinion on those statements. As discussed in Note 11, the District has restated its June 30, 2010, financial statements during the current year to correct for errors in reporting improperly capitalized fixed assets, in conformity with accounting principles generally accepted in the United States of America. The other auditors reported on the June 30, 2010, financial statements before the restatement.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of June 30, 2011 and 2010, and the results of its operations and its cash flows for the fiscal years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2011, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 2 through 4 are presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis (Unaudited)

The management of the Metropolitan Water District of Salt Lake & Sandy (the "District") presents to the reader of the District's financial statements this discussion and analysis of the District's financial performance for the fiscal years ended June 30, 2011 and 2010.

Overview of the financial statements

The District's financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States, promulgated by the Governmental Accounting Standards Board ("GASB"). The District reports as a single enterprise fund. Revenues are recognized when earned and expenses are recognized in the period in which they are incurred. See the notes to the financial statements for a summary of the District's significant accounting policies.

Metropolitan Water District of Salt Lake & Sandy's Net Assets

	2011	2010	2009
Current and other assets	\$ 86,204,987	\$ 80,850,541	\$ 74,619,855
Capital assets	340,960,746	347,963,441	353,283,543
Total assets	427,165,733	428,813,982	427,903,398
Deferred outflow of resources	9,098,380	11,153,298	13,846,517
Total assets and deferred outflow of resources	436,264,113	439,967,280	441,749,915
Current and other liabilities	10,845,321	10,858,302	10,571,288
Long-term liabilities	263,193,739	279,266,747	280,707,345
Total liabilities	274,039,060	290,125,049	291,278,633
Net Assets:			
Invested in capital assets, net of related debt	88,527,275	93,497,112	99,953,566
Restricted net assets	12,995,655	10,027,844	11,313,239
Unrestricted net assets	60,702,123	46,317,275	39,204,477
Total fund net assets	\$ 162,225,053	\$ 149,842,231	\$ 150,471,282

Financial analysis

The District's primary sources of revenue are made up from water sales, property taxes, and special assessment revenues. Each source of revenue is predictably stable with slight variations in water sales due to seasonal weather patterns, and slight variations in property taxes due to changes in property values and/or certified tax rates. Special assessment revenues are based on each member city's investment in new system capacity and/or new water supplies. Once the special assessments are established, they remain stable until the investment in system capacity or water supply has been paid.

As part of its ongoing efforts to effectively manage long-term debt, the District refinanced a portion of its debt by restructuring the series A bonds, see note 6 for further details. In addition, the District is taking steps to diversify its deposits and investments. These efforts are consistent with the Utah Money Management Act. A contract with a certified investment advisor has been established with investment activity to begin in FY 2012.

The gain on the investment in Provo River Water Users Association primarily reflects an increase in the equity of the Association due to contributions to the Association from the federal government related to improvements made to the Deer Creek Dam as part of the Bureau of Reclamation's Safety of Dams Program.

Metropolitan Water District of Salt Lake & Sandy's Changes in Net Assets

Metropolitan Water District of Salt Lake & Sandy's Summary of Expenses

	2011	2010	2009
Operating expenses			
Cost of sales and services	\$ 9,623,956	\$ 10,216,761	\$ 11,075,233
General and administrative	2,326,968	1,917,777	2,972,780
Depreciation	11,102,779	11,025,827	10,367,114
Total operating expenses	23,053,703	23,160,365	24,415,127
Non-operating expenses			
Interest expense	10,998,183	11,383,408	11,801,104
Loss on disposal of capital assets	344,055	-	-
Total non-operating expenses	11,342,238	11,383,408	11,801,104
Total expenses	\$ 34,395,941	\$ 34,543,773	\$ 36,216,231

Capital asset activity

The District's capital assets for its governmental activities, as of June 30, 2011 and 2010, amounted to \$340,960,746 and \$347,963,441, respectively (net of accumulated depreciation). This investment in capital assets includes the water system, land, administrative buildings and equipment, aqueduct rights and privileges, and investments in surface water resources.

A thorough review of fixed assets was conducted during the fiscal year 2011. This resulted in the disposal of some capital assets and reclassifications of others (see note 4). In addition, the District has completed the design of the replacement of the terminal reservoir of the Salt Lake Aqueduct. The design was nearly complete as of June 30, 2011, with construction expected to start in fiscal year 2012 and continue through fiscal year 2019. Additional financing is anticipated during that time period in order to fully fund the project. The construction cost of the project is anticipated to be approximately \$37 million.

Economic factors and budgetary analysis

Despite the difficulties found in the general economy, the District continues to find its revenues and expenses to be following a steady trend. Water rates are expected to increase 3% a year. This forecast has been communicated to the member cities and they anticipate the change. Operations and maintenance expenses are budgeted at an inflationary index of 3% per year. Capital expenditures are planned using asset management techniques that evaluate the condition, criticality, and consequence of the asset. Long-term debt is reviewed on an ongoing basis in an effort to capitalize on any opportunities. The District's bond ratings are AA+ by Fitch and AA+ by Standard and Poors.

Requests for information

This financial report is designed to give its readers a general overview of the District's finances. Questions regarding any information contained in this report or requests for additional information should be addressed to the General Manager, 3430 East Danish Road, Cottonwood Heights, Utah 84093.

See accompanying notes to financial statements

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements

Note 1 - Significant accounting policies

Reporting entity - The Metropolitan Water District of Salt Lake & Sandy (the "District") is organized under the Metropolitan Water District Act. The District is a separate legal entity, with a seven member board, five of which are appointed by Salt Lake City and two of which are appointed by Sandy City. Board members serve for a specified term and cannot be removed without cause. However, as the member cities are unable to impose their will and are not financially accountable for the District, the District is not reported as a component unit of the member cities. Substantially all of the water resources developed by the District are sold to Salt Lake City and Sandy City.

Basis of presentation - The District is a governmental unit that is accounted for as a business-type activity. It is classified as a proprietary fund type and operates as an enterprise fund. The District's basic financial statements are presented on the full accrual basis of accounting and conform to accounting principles generally accepted in the United States of America. The District applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued after November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. Under the accrual basis of accounting, revenues are recognized when earned and expenditures are recognized when incurred.

The District reports its water production, storage, and distribution operations as a proprietary fund. Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Cash and cash equivalents - For purposes of the statements of cash flows, the District considers all highly liquid investments (including restricted assets) with a maturity of three months or less, when purchased, to be cash equivalents.

Accounts receivable - Accounts receivable are generally comprised of receivables on water sales and special assessment revenues, which are expected to be paid by cities and other wholesale customers. Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management does not expect any uncollectible amounts as most payments are from governmental entities.

Supplies - Inventories, consisting of chemicals for the purification of water and fuels are stated at the lower of cost (on the first-in, first-out basis) or market.

Capital assets - Capital assets include property, plant, equipment, and intangible assets (i.e. investment in water sources), and are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life of more than one year. Property, plant and equipment purchased or acquired is carried at historical cost or estimated historical cost. Water sources are recorded at their acquisition cost. Donated or contributed capital assets are recorded at their estimated fair value on the date received. Depreciation of capital assets is computed using the straight-line method over the estimated useful lives of the assets as follows:

	Years
Building and improvements	5-50
Machinery and equipment	3-20
Transportation equipment	3-7
Furniture and fixtures	3-20
Aqueduct and appurtenances	5-75

No depreciation is provided on construction in progress until the asset is placed in service.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 1 - Significant accounting policies (continued) **Bond issuance costs, bond discounts, and bond premiums** - Costs incurred for bond issuance, bond discounts, and bond premiums are deferred and amortized over the term of the related bonds using a method approximating the effective interest method. Bond discounts and bond premiums are presented as a reduction or addition to the face amount of bonds payable, whereas, issuance costs are recorded as an asset.

Capitalization of interest costs - The District capitalizes interest on borrowings which are used to finance construction. Capitalization of interest is net of interest earned on construction funds borrowed. Interest capitalization ceases when the construction project is substantially completed. Net interest capitalized was \$12,830 and \$44,672 and total interest expense was \$10,998,183 and \$11,383,408 for the fiscal years ended June 30, 2011 and 2010, respectively.

Deferred charges - Costs of preliminary surveys, design and other investigations which are related to proposed construction are deferred and included in construction in progress until the projects are placed in service, at which time they are depreciated over their useful lives. The cost of discontinued projects is charged to expense in the year the decision is made to discontinue the project.

Capital contributions - In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, capital contributions are recorded as revenues.

Use of estimates in the preparation of financial statements - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Hedging activities - The District accounts for hedging activities in accordance with GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*. This standard requires that derivative instruments be reported at fair value, and that changes in the fair value of instruments that are considered to be hedging derivative instruments and found to be effective, be reported as either deferred inflows or deferred outflows in the statements of net assets. In addition, the District has early implemented the provisions of GASB Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions -- an amendment of GASB Statement No. 53*, which clarifies whether an effective hedging relationship continues after the replacement of a swap counterparty.

Classification of revenue:

•**Operating revenues** - Operating revenues include activities that have the characteristics of exchange transactions such as water sales revenue.

•**Non-operating revenues** - Non-operating revenues include activities that have the characteristics of non-exchange transactions and other revenue sources that are defined as non-operating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting* and GASB Statement No. 34. Examples of non-operating revenues include property tax revenues, interest income, gain or loss on sale of assets, and equity earnings in the District's investment in Provo River Water Users Association.

Risk management - The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. All general liability, real property, and vehicles are insured through commercial policies. The District has established a self-insurance reserve to fund deductibles on the commercial policies. The amount of settlements did not exceed insurance coverage for the past three years for all policies.

Reclassifications - Certain reclassifications have been made to the 2010 financial statement presentation to correspond to the current year's format. Total net assets and changes in net assets are unchanged due to these reclassifications.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 1 - Significant accounting policies (continued) •**Property tax revenue** - Property tax revenue is collected and remitted by the Salt Lake County Treasurer as an agent for the District.

Utah statutes establish the process by which taxes are levied and collected. Property taxes are assessed as of January 1 of the year in which they are due. September 1 is the levy date with a due date of November 30. Delinquent taxes are subject to a two percent penalty, with a \$10 minimum penalty. If delinquent taxes and penalties are not paid by January 15 of the following year, these delinquent taxes, including penalties, are subject to an interest charge at a rate equal to the federal discount rate, and the interest period is from January 1 until the date paid. If on March 15 following the lapse of four years from the date when the property taxes became delinquent, the taxes remain delinquent, the County Treasurer advertises and sells the property at a tax sale.

•**Water sales revenue** - Revenue from water sales is recorded based on monthly usage at the stated wholesale water rate. Water usage is measured by flow meters located throughout the system.

Net assets - The District's net assets are classified as follows:

•**Invested in capital assets, net of related debt** - This component of net assets consists of the District's total investment in capital assets, net of accumulated depreciation, reduced by the outstanding debt obligations related to those assets. To the extent debt has been incurred, but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt.

•**Restricted net assets** - This component of net assets consists of net assets with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.

•**Unrestricted net assets**- This component of net assets consists of net assets that do not meet the definition of "restricted net assets" or "invested in capital assets, net of related debt".

Note 2 - Cash, cash equivalents, and investments Cash and cash equivalents consisted of the following:

June 30	2011	2010
Unrestricted:		
Self insurance contingency	\$ 2,000,000	\$ 2,000,000
Interest rate stabilization	2,629,511	1,597,314
Operating and maintenance	18,128,798	19,615,501
Total unrestricted cash and cash equivalents	22,758,309	23,212,815
Restricted:		
Bond payments and capital projects	14,883,452	24,425,174
Operating and maintenance	3,417,789	3,370,949
Renewal and replacement	650,000	650,000
150th South pipeline	32,342	31,965
Jordan Valley WTP O&M agreement	20,000	20,000
Jordan aqueduct repayment contract	39,425	38,965
Total restricted cash and cash equivalents	19,043,008	28,537,053
Total cash and cash equivalents	\$ 41,801,317	\$ 51,749,868

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 2 - Cash, cash equivalents, and investments (continued) **Deposits** - Deposits and investments for local governments are governed by the Utah Money Management Act (Utah Code Annotated, Title 51, Chapter 7, "the Act") and by rules of the Utah Money Management Council ("the Council"). Following are discussions of the District's exposure to various risks related to its cash management activities.

Custodial credit risk - Custodial credit risk for deposits is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. The Act requires all deposits of local government to be in a qualified depository, defined as any financial institution whose deposits are insured by an agency of the Federal government and which has been certified by the Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Council.

As of June 30, 2011 and 2010, the District's deposits had bank balances of \$2,387,742 and \$9,059,234, respectively, which are held in qualified depositories. Because these funds are held in a daily sweep account, they are not covered by federal depository insurance. Repurchase agreements in the amount of \$650,000 are supported by a safekeeping receipt issued by a qualified depository, but the securities are held by the investment's counterparty, not in the name of the District.

Credit risk - Credit risk is the risk that the counterparty to an investment will not fulfill its obligations. The District's policy for limiting the credit risk of investments is to comply with the Money Management Act. The District is authorized to invest in the Utah Public Treasurer's Investment Fund (the "PTIF"), an external pooled investment fund managed by the Utah State Treasurer and subject to the Act and Council requirements. The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act, Section 51-7, Utah Code Annotated, 1953, as amended. The Act established the Money Management Council, which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains, and losses - net of administration fees of the PTIF, are allocated based upon the participant's average daily balance. The fair value of the PTIF investment pool is approximately equal to the value of the pool shares. For the years ended June 30, 2011 and 2010, the District had funds of \$24,625,702 and \$18,502,969, respectively, with the PTIF. The entire balance had a maturity of less than one year. The PTIF pool has not been rated.

Interest rate risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair value by investing mainly in the PTIF and by adhering to the Money Management Act. The Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The District's investment policy specifies that all investments will be sufficiently liquid to enable the District to meet all operating requirements which might be reasonably anticipated.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 3 - Net assets Net assets are restricted by provisions of the bond resolutions adopted by the District (Note 6) as follows:

Amounts restricted for costs of construction projects - The 2002 Bond Resolution requires that a reserve be established or bond proceeds restricted to the related construction projects. Any excess funds shall be applied to the payment of principal and interest on the bonds when due.

Amounts restricted for revenue bond debt service - On April 29, 2002, the District adopted a master resolution providing for the issuance of water revenue bonds ("2002 Bond Resolution") which requires that a debt service account ("Bond Fund") be maintained, at minimum, that is equal to the principal and interest installment due within the fiscal year on the outstanding revenue bonds.

Amounts restricted for renewal and replacement - The 2002 Bond Resolution requires that an initial renewal and replacement reserve of \$650,000 be established but the reserve may be increased or decreased from time to time by a supplemental resolution. In the event a deficiency arises in the amounts restricted for the Bond Fund, monies in the renewal and replacement reserve shall be transferred to satisfy the deficiency.

Use of restricted assets - When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Restricted net assets are as follows:

June 30	2011	2010
Future debt service	\$ 8,836,099	\$ 5,915,965
Operating and maintenance	3,417,789	3,370,949
Renewal and replacement	650,000	650,000
150th South pipeline	32,342	31,965
Jordan Valley WTP O&M agreement	20,000	20,000
Jordan aqueduct repayment contract	39,425	38,965
Total restricted net assets	\$ 12,995,655	\$ 10,027,844

Unrestricted net assets are as follows:

June 30	2011	2010
Committed		
Self insurance contingency	\$ 2,000,000	\$ 2,000,000
Interest rate stabilization	2,629,511	1,597,314
Uncommitted	56,072,612	42,719,961
Total unrestricted net assets	\$ 60,702,123	\$ 46,317,275

Metropolitan Water District of Salt Lake & Sandy

Note 5 - Provo River Water Users Association The Provo River Water Users Association (the "Association") is a water resources agency incorporated under Utah law with 100,000 shares of no-par value, assessable capital stock, all of which were outstanding at June 30, 2011 and 2010. Each share carries a pro rata right to the use of all water made available by the Association annually up to a limit of one acre foot per share of stock. The District holds 61,700 (61.7%) of the Association's shares of stock, with the remaining 38.3% being held by 19 stockholders that are made up of individuals, for-profit businesses, not-for-profit companies, and government agencies, of which 1 stockholder owns a greater than 10% interest. In accordance with governmental accounting standards, the District's investment has been accounted for using the equity method. The carrying value of the District's investment at June 30, 2011 and 2010 approximated the District's underlying equity in the net assets of the Association.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 5 - Provo River Water Users Association (continued) The accounts of the Association are included in the June 30 financial statements of the District as of its most recent audited financial statements, October 31, 2010 and 2009. The District's investment in the Association as of October 31, 2010 and 2009 is summarized as follows:

October 31	2010	2009
District's share of Deer Creek Division:		
Original contract	\$ 7,033,800	\$ 7,033,800
Excess costs	7,654,208	7,654,208
Total share of Deer Creek Division	14,688,008	14,688,008
District's interest in the Association's retained earnings	16,342,061	2,402,128
District's total share in the Association's retained earnings	31,030,069	17,090,136
Additional contributions		
Contribution related to the Association's enclosure project	1,449,818	-
Contribution for Deer Creek Project	128,645	-
Total	\$ 32,608,532	\$ 17,090,136

Summary financial information for the Association as of, and for the fiscal years ended October 31, 2010 and 2009, is presented as follows:

October 31	2010	2009
Cash and investments	\$ 11,950,313	\$ 1,357,243
Other assets, principally water rights	65,590,589	38,122,540
Total assets	77,540,902	39,479,783
Total liabilities	27,249,057	11,693,740
Total equity	50,291,845	27,786,043
Total liabilities and equity	77,540,902	39,479,783
Total revenues	25,367,147	3,744,763
Total expenses	(3,184,645)	(3,205,872)
Net income	\$ 22,182,502	\$ 538,891

The Association's complete financial report can be obtained by contacting their offices directly, located at 285 West 1100 North, Pleasant Grove, UT 84062.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 6 - Long-term debt The District's long-term debt consisted of the following:

June 30	2011	2010
2002B Series water revenue refunding bonds, interest at 3.50% to 5.25%, maturing in annual installments through 2024.	\$ 14,805,000	\$ 15,635,000
2003A Series water revenue bonds, interest at 2.50% to 5.25%, maturing in annual installments through 2020.	5,140,000	5,595,000
2004 Series water revenue bonds interest at 2.25% to 5%, maturing in annual installments through 2024.	32,575,000	34,390,000
2005A Series water revenue bonds, interest at 3.00% to 5.00%, maturing in annual installments through 2025.	41,525,000	42,725,000
B-3 Series program revenue bonds, interest at 3.64% to 4.23%, maturing in annual installments through 2036.	-	75,000,000
B-5 Series water revenue bonds, interest at weekly variable rate (0.37% at June 30, 2010), maturing in annual installments through 2032.	-	28,700,000
2009A Series water revenue refunding bonds, interest at 4.23%, maturing in 2031 with interest only payments through 2024.	60,320,000	60,320,000
2011A Series variable rate water revenue refunding bonds, interest at monthly variable rate (0.99% at June 30, 2011), maturing in annual installments through 2036.	94,890,000	-
Total debt	249,255,000	262,365,000
Less bonds payable, current	(4,795,000)	(4,500,000)
Bonds payable, net of current portion	\$ 244,460,000	\$ 257,865,000

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 6 - Long-term debt (continued) As of June 30, 2011, aggregate debt service requirements of the District's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are presented below. These amounts assume that current interest rates on variable-rate bonds and the current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary. The hedging derivative instruments column reflects only net receipts/payments on derivative instruments that qualify for hedge accounting.

Fiscal year ending June 30	Principal	Interest	Hedging derivatives, net	Total
2012	\$ 4,795,000	\$ 8,419,294	\$ 2,101,645	\$ 15,315,939
2013	5,695,000	8,228,827	2,101,645	16,025,472
2014	6,040,000	7,990,481	2,101,645	16,132,126
2015	6,335,000	7,709,298	2,101,645	16,145,943
2016	6,745,000	7,395,520	2,101,645	16,242,165
2017-2021	39,540,000	31,617,829	10,508,225	81,666,054
2022-2026	54,175,000	21,403,578	10,422,189	86,000,767
2027-2031	75,340,000	9,584,487	284,917	85,209,404
2032-2036	44,500,000	1,101,653	-	45,601,653
2037-2041	6,090,000	-	-	6,090,000
Total	\$ 249,255,000	\$ 103,450,967	\$ 31,723,556	\$ 384,429,523

Changes to the District's long-term debt are as follows:

	2011	2010
Beginning balance	\$ 262,365,000	\$ 266,010,000
Bonds issued	94,890,000	60,320,000
Bond retirements and principal payments	(108,000,000)	(63,965,000)
Ending balance	\$ 249,255,000	\$ 262,365,000
Due within one year	\$ (4,795,000)	\$ (4,500,000)

Credit risk - Effective on May 11, 2009, the District replaced JP Morgan Chase Bank, National Association with the New York Branch of Landesbank Hessen-Thuringen Girozentrale ("Heleba") as the liquidity provider for all outstanding variable rate debt (Series B-3 and B-5). The District terminated and paid in full the agreement on May 9, 2011.

The following are selected provisions of the 2002 Bond Resolution:

Optional redemption and redemption prices - The series 2002B bonds maturing on or after July 1, 2013, are subject to redemption prior to maturity at the option of the District on or after July 1, 2012, in whole or in part at any time, from such maturities or parts thereof as shall be selected by the District, at a redemption price of 100% of the principle amount of the Series 2002B bonds or portions thereof to be redeemed, plus accrued interest to the redemption date.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 6 - Long-term debt (continued) **Pledge of the Bond Resolutions** - The 2002 Bond Resolution provides that the Bonds shall be special obligations of the District payable solely from and secured by: (i) the proceeds of sale of the Bonds; (ii) the revenues, and (iii) all funds (other than the operation and maintenance fund and the rebate fund), including the investments, if any, thereof, subject to any required rebate of all or a portion of the earnings on such investments to the United States of America.

Funds required by the Bond Resolutions - The 2002 Bond Resolution requires that certain "funds" be established to account for the District's receipts and disbursements. Such "funds" are accounts within the District's records and are not separate funds or groups of self-balancing accounts. The amounts held in these funds are to be used for the purposes stipulated in the 2002 Bond Resolution.

Current year bond refunding - During fiscal year 2011, the District issued \$94,890,000 of bonds, series 2011A with a variable interest rate, to refund \$74,800,000 of outstanding bonds; series B-3, and \$28,700,000 of outstanding bonds, series B-5. The series 2011A matures in 2036. GASB requires that the difference between the reacquisition price and the net carrying amount of the old debt will be deferred and amortized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or life of the new debt, whichever is shorter. The difference between the reacquisition price and the net carrying amount of the old debt is comprised of unamortized issuance costs and unamortized termination costs of the refunded bonds, which totaled \$2,662,680 and \$1,764,723 at the date of refunding, respectively. The refunding was done in order to reduce total debt service payments in the future and resulted in an estimated economic gain of \$3,868,013.

Prior year bond refunding - During fiscal year 2010, the District issued \$60,320,000 of bonds, series 2009A with a fixed interest rate of 4.23%, to refund \$60,200,000 of outstanding revenue bonds; series B-3. The series 2009A matures in 2031. An initial debt service reserve was set up in the amount of \$6,032,000. GASB requires that the difference between the reacquisition price and the net carrying amount of the old debt will be deferred and amortized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or life of the new debt, whichever is shorter. The difference between the reacquisition price and the net carrying amount of the old debt is comprised of unamortized issuance costs and swap termination costs of the refunded bonds, which totaled \$434,857 and \$3,944,000 at the date of refunding, respectively. The refunding was done in order to reduce total debt service payments in the future and resulted in an estimated economic gain of \$4,092,662.

Note 7 - Derivative instruments - The District's long-term debt strategy is to maintain a mixture of fixed and variable-rate debt to take advantage of the two markets in order to effectively manage its debt, and to reduce its exposure to interest rate risk.

The District is a party to contracts for various derivative instruments, as discussed below. All derivative instruments of the District are classified as debt. At June 30, 2011, the District has the following derivative instruments outstanding:

	Notional Amount	Fair Value	Changes in Fair Value	
			Classification	Amount
Pay-fixed interest rate swap	\$ 15,300,000	\$ (2,620,307)	Deferred Outflow	\$ 541,764
Pay-fixed interest rate swap	43,500,000	(6,478,073)	Deferred Outflow	1,513,154
Total	\$ 58,800,000	\$ (9,098,380)		\$ 2,054,918

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 7 - Derivative instruments (continued) At June 30, 2010, the District has the following derivative instruments outstanding:

	Notional Amount	Fair Value	Changes in Fair Value	
			Classification	Amount
Pay-fixed interest rate swap	\$ 15,300,000	\$ (3,162,071)	Deferred Outflow	\$ (749,725)
Pay-fixed interest rate swap	43,500,000	(7,991,227)	Deferred Outflow	(1,744,999)
Total	\$ 58,800,000	\$ (11,153,298)		\$ (2,494,724)

On May 6, 2011, the District novated their two interest rate swap agreements with Deutsche Bank. The novated swaps carry similar terms and are pay-fixed, receive-variable interest rate swaps on a portion of their 2011A revenue refunding bonds. The notional amount of the swaps were \$15,300,000 and \$43,500,000, respectively. The notional amount of the swaps and the principal amounts of the debt will start to decline in fiscal year 2025. The swaps are scheduled to terminate August 23, 2027. Under the terms of the swaps, the District pays a rate of 3.865% and 3.640%, respectively, and receives a variable rate equivalent to 67% of the 1-month USD-LIBOR-BBA (0.12% at June 30, 2011).

Fair value - At June 30, 2011 and 2010, the swaps had a combined negative fair value of \$9,098,380 and \$11,153,298, respectively, because interest rates have declined since the swaps were executed. The negative fair value may be mitigated by reduction in total interest payments required on the bonds, creating a lower synthetic interest rate. Because interest on the variable rate bonds adjusts to changing interest rates, the bonds do not have a corresponding fair value increase. The fair value was calculated under the terms and conditions of the agreement. The swap provider is the calculation agent.

Credit risk - Credit risk is the risk that the counterparty will not fulfill its obligations to the District. Should a swap be terminated when there is a positive value to the District, the District has the risk the counterparty will not be able to make the termination payment. Also, during the life of the swap, the District runs the risk that the counterparty will not make the monthly swap payments and thus be exposed to variable interest rates. This risk has been mitigated by the highly rated counterparty in these transactions. At June 30, 2011, the swap counterparty was rated Aa3 by Moody's Investor Services, A+ by S&P, and AA- by Fitch. In managing its interest rate swaps, the District adheres to the rules and regulations set forth by the Utah State Money Management Council.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 7 - Derivative instruments (continued) **Basis risk** - The District's variable rate bondholders are paid the bond rate, which rate is closely based upon the tax-exempt interest rate of the Securities Industry and Financial Markets Association, which replaced the Bond Market Association Index, plus a spread, if any, based upon actual remarketing rates. Interest rate swaps can be structured utilizing a number of indices, which result in varying synthetic fixed rates. The basis risk is created when the interest paid by the District to the bondholder differs from the interest rate received from the counterparty.

Termination risk - The District or the counterparty may terminate the swap if either party fails to perform under the terms of the contract. The District may terminate the swap if the counterparty's credit quality rating falls below BBB-. If the swap is terminated, the variable-rate bond will no longer carry a synthetic interest rate. Also, if at the time of termination, the swaps had a negative fair value, the District would be liable to the counterparty for an amount equal to the swap's fair value.

Rollover risk - The District is exposed to rollover risk with its interest rate derivatives. Should a derivative terminate before the underlying bonds mature, there could be a time when the District is exposed to market volatility. Upon the termination of current interest rate derivatives, the District could be exposed to different market conditions for hedging its true variable rate bonds.

Note 8 - Retirement plans **Plan description** - The District contributes to the Local Governmental Noncontributory Retirement System, which is a cost-sharing, multiple-employer, defined benefit pension plan administered by the Utah Retirement System ("the System"). The System provides retirement benefits, annual cost of living allowances, death benefits, and refunds to plan members and beneficiaries in accordance with retirement statutes established and amended by the State legislature.

The System was established and is governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953 (Chapter 49) as amended, which also establishes the Utah State Retirement Office (the "Office") for the administration of the System and plans. Chapter 49 places the System, the Office, and related plans and programs under the direction of the Utah State Retirement Board (the "Board") whose members are appointed by the Governor.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the System and Plans. A copy of the report may be obtained by writing to the Utah Retirement System, 540 East 200 South, Salt Lake City, Utah 84102 or by calling 1-800-365-8772.

Funding policy - The District was required to contribute 13.37% and 11.66% for the fiscal years ended June 30, 2011 and 2010, respectively of annual covered salary to the Local Government Noncontributory Retirement Systems. The contribution rates are the actuarially determined rates and are approved by the Board as authorized by Chapter 49.

The District's contributions to the Local Government Noncontributory Retirement System for the years ended June 30, 2011 and 2010 were \$464,291 and \$411,155, respectively. The contributions were equal to the required contributions for each year.

Loans or notes between the District and the Retirement System - No securities, loans, or notes of the District are included in the assets of the System.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 9 - Deferred compensation plans - **401(k) plan** - The District offers their full-time permanent employees participation in a defined contribution plan created in accordance with Internal Revenue Code Section 401(k) (the "Plan"). The Plan is administered by the System. Employees may contribute from 1% to 100% of their annual salary up to a maximum of \$16,500 (\$22,000 for employees aged 50 or older) for 2011 and 2010, respectively. Through May 1, 1998, the District contributed 1.18% of the covered payroll of employees who also participate in the noncontributory retirement plan. After May 1, 1998, the District contributed 50% of the first 6% contributed by the employee, up to a maximum of 3% of the covered payroll of employees who also participate in the noncontributory retirement plan. During 2011 and 2010, all participants in the Plan also participated in the noncontributory defined benefit plan of the System. The District is not legally obligated to contribute and any contribution made is at the discretion of the Board of Trustees. All employee and District contributions are fully vested at all times.

Contributions made by employees to the Plan were \$144,056 and \$168,889 for the fiscal years ended June 30, 2011 and 2010, respectively. Contributions made by the District to the Plan were \$89,202 and \$84,526, respectively.

457 and Roth IRA plans - The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457 and Roth IRA ("the Plans"). The Plans, administered by the System and available to all District full-time permanent employees, permits an employee to defer a portion of their salary until future years. The deferred compensation is not available to employees or their beneficiaries until termination, retirement, death, or unforeseeable emergency.

The employer contribution to the Plans was \$0 for both years. Employee contributions for the years ended June 30, 2011 and 2010 for the 457 Plan were \$28,116 and \$27,759 and for the Roth IRA plan the contributions were \$27,961 and \$25,748, respectively.

The 401(k), 457 and the Roth IRA plans are included in a publicly available financial report that includes financial statements and required supplementary information. A copy of the System's report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, Utah 84102 or by calling 1-800-365-8772.

Note 10 - Commitments and contingent liabilities - The District is contingently liable for an amount equal to 35% of its direct liability on the original contract with the Association for costs incurred on the Deer Creek Division of the Provo River Project if other subscribers default, and shares remain unsold. The maximum contingent liability amounted to approximately \$665,000 at June 30, 2011.

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 10 - Commitments and contingent liabilities (continued) - The District entered into a separate agreement with Sandy City for the District to purchase water rights in the Ontario Drain Tunnel. The rights are owned by the District and were purchased using a portion of the Series 2005 water revenue bond proceeds. As part of the agreement, Sandy City will pay special assessments to cover the portion of the bond payments corresponding to the purchase. The expected flow of cash from these assessments is as follows:

June 30	Assessment Payments
2012	\$ 958,607
2013	982,859
2014	988,040
2015	1,006,729
2016	1,014,554
2017-2021	5,095,695
2022-2026	5,148,872
2027-2031	5,423,175
Total	\$ 20,618,531

The District has an agreement with Salt Lake City and Sandy City to pay special assessments related to capital improvements for the City's respective share of capacity in the Point of the Mountain Water Treatment Plant, Point of the Mountain Aqueduct, and improvements to Little Cottonwood Water Treatment Plant. The expected flow of cash from these assessments is as follows:

June 30	Assessment Payments
2012	\$ 11,232,214
2013	11,232,214
2014	11,232,214
2015	11,232,214
2016	11,232,214
2017-2021	56,161,070
2022-2026	56,161,070
2027-2031	56,161,070
2032-2036	39,312,749
Total	\$ 263,957,029

Major customers - The District has 2 major customers that make up 98.07% and 91.96% of the District's water sales for 2011 and 2010, respectively. For the years ended June 30, 2011 and 2010, the percentages of water sales are as follows:

	2011	2010
Salt Lake City	74.19%	69.12%
Sandy City	23.88%	22.84%
Total	98.07%	91.96%

Metropolitan Water District of Salt Lake & Sandy

Notes to Financial Statements (continued)

Note 11 - Prior period adjustment During 2011, the District determined that certain capital assets that had been previously transferred were not properly recorded. As a result, beginning net assets, and capital assets have been adjusted to restate the District's position for the year ended June 30, 2010. The effect of the adjustment is shown below.

	Capital assets, net	Invested in capital assets, net of debt	Beginning net assets
June 30, 2010, as reported	\$ 350,845,523	\$ 96,379,194	\$ 153,353,364
Adjustment to capital assets	(2,882,082)	(2,882,082)	(2,882,082)
June 30, 2010, as restated	\$ 347,963,441	\$ 93,497,112	\$ 150,471,282

Note 12 - Subsequent event The District evaluated all events or transactions that occurred after June 30, 2011 through November 21, 2011, the date the financial statements were available to be issued. During this period, the District did not have any material recognizable subsequent events.

**INDEPENDENT AUDITOR'S REPORT
ON STATE OF UTAH
LEGAL COMPLIANCE**

Board of Trustees
Metropolitan Water District of Salt Lake & Sandy
Cottonwood Heights, Utah

We have audited Metropolitan Water District of Salt Lake & Sandy's (the District) compliance with general and major state program compliance requirements described in the *State of Utah Legal Compliance Guide* for the year ended June 30, 2011. The general compliance requirements applicable to the District are identified as follows:

Public Debt	Special Service and Local District
Cash Management	Other General Compliance Issues
Purchasing Requirements	Utah Retirement Systems
Budgetary Compliance	Fund Balance Limitation
Truth in Taxation and Property Tax Limitations	

The District did not receive any major or nonmajor State grants during the year ended June 30, 2011.

Compliance with the requirements referred to above is the responsibility of the District's management. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the State of Utah Legal Compliance Audit Guide. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above could have a material effect on the major assistance programs or general compliance requirements identified above. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District, complied, in all material respects, with the general compliance requirements identified above and the compliance requirements that are applicable to each of its major state programs for the year ended June 30, 2011. However, the results of our auditing procedures disclosed other instances of noncompliance with those requirements, which are required to be reported in accordance with the State of Utah Legal Compliance Audit Guide and which are described in the accompanying *Schedule of Findings* as item 2011-1.

Management's response to the finding identified in our audit is described in the accompanying *Schedule of Findings*. We did not audit management's response, and accordingly, we express no opinion on it.

Our audit does not provide a legal determination on the District's compliance with these requirements.

This report is intended solely for the information and use of management of the District and is not intended to be and should not be used by anyone other than these parties. However, the report is a matter of public record and its distribution is not limited.

Jensen & Keddington

November 1, 2011

Metropolitan Water District of Salt Lake & Sandy

Schedule of Findings - Compliance - State of Utah

2011-1 Treasurer Fidelity Bond

Finding:

The State of Utah Legal Compliance Guide states: "The public treasurer shall secure a fidelity bond, based on the previous year's budgeted gross revenues". During our audit, we noted that the District is under-bonded for the 2011 fiscal year based off of fiscal year 2010's budgeted gross revenues.

Recommendation:

We recommend that the District ensure it is adequately bonded each year by calculating the minimum bonding requirements.

Management Response:

As part of the District's internal control procedures, a review of policies and procedures is performed. During its annual review in June 2011, the District became aware that the treasurer's fidelity bond should have been established at approximately \$1,080,000 instead of the then existing bond amount of \$1,000,000 (see Utah Money Management Council rule R628-4 Bonding for Public Treasurers). Upon identification and as part of the annual renewal of insurance, the bond was upgraded to \$1,100,000 with an effective date of August 8, 2011.

**REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF THE FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Metropolitan Water District of Salt Lake & Sandy
Cottonwood Heights, Utah

We have audited the basic financial statements of Metropolitan Water District of Salt Lake & Sandy (the District) as of and for the year ended June 30, 2010 and 2011, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 1, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Trustees, and others within the entity, and is not intended to be and should not be used by anyone other than these specified parties.
